DENTAL CARE AT YOUR SCHOOL!!

We are pleased to inform you that Brooker Memorial Pediatric Dental Center, Delta Dental, Torrington Savings Bank and Torrington Public Schools are partnering to provide preventive dental care at the elementary schools in Torrington. We will be offering dental cleanings, fluoride, oral health screenings and sealants in grades Pre-K through fifth grade for the 2024-2025 school year. **This program is open to all students and we encourage you to have your child participate.**

A registered dental hygienist from Brooker Memorial Pediatric Dental Center, will provide these services to your child. If your child is in need of sealants or additional dental treatment, it will be detailed on a follow up report the hygienist will mail to you after your child's visit. If your child maintains regular dental appointments with your family dentist or Brooker Dental, you are still able to participate in this program. The goal of this program is to ensure all children have access to dental care. We know it can be difficult to take time off from work for your children's healthcare appointments.

If you would like your child to receive preventive dental care through this program, simply fill out the information and consent forms included in this packet and return them to the school nurse. If you would like more information about the program, please call your school nurse or Brooker Dental at 860-489-1328.

We request that you provide dental insurance information and give us permission to bill the insurance to help offset the cost of this program. Otherwise, families will not be billed for services provided at school. We look forward to providing dental care to your child!

Sincerely,
Christina Emery
Executive Director
